The Pennsylvania Trauma Systems Foundation (PTSF) is a non-profit corporation recognized by the Emergency Medical Services Act (Act 1985-45). The PTSF is the organization responsible for accrediting trauma centers in the Commonwealth of Pennsylvania.

Trauma centers are hospitals with resources immediately available to provide optimal care and reduce the likelihood of death or disability to injured patients. Accredited trauma centers must be continuously prepared to treat the most serious life threatening and disabling injuries. They are not intended to replace the traditional hospital and its emergency department for minor injuries.

In Pennsylvania, there are four levels of trauma centers. Learn more at: [What is a Trauma Center?](#)
